RESEARCH INTEREST

M.S. student in the Department of Artificial Intelligence at Chung-Ang University, advised by Prof. Hwanhee Lee at the Language Intelligence Lab (LILAB). My research centers on **Retrieval-Augmented Generation (RAG)**, with emphasis on multilingual settings where language bias and cross-lingual inconsistency remain open problems. I also study **ambiguity resolution in question answering** — how LLMs interpret and reason over semantically ambiguous queries that demand multi-hop inference.

WORK EXPERIENCE

Chung-Ang University <i>M.S. Student, Department of Artificial Intelligence</i> Language Intelligence Lab (LILAB), advisor: Prof. Hwanhee Lee	Mar 2025 – Current
Adobe Research, San Jose, CA, USA <i>Collaborative Researcher, Natural Language Processing Group</i> Remote collaboration with Dr. Seunghyun Yoon. Themes: resolving ambiguous questions, understanding code-switched text.	Jun 2025 – Current
Chung-Ang University <i>Research Intern, Language Intelligence Lab (LILAB)</i> Advisor: Prof. Hwanhee Lee	Jul 2023 – Feb 2025
Chung-Ang University <i>Research Intern, Data Science Lab (DSLAB)</i> Advisor: Prof. Yoonsik Cho	Dec 2022 – Jun 2023

EDUCATION

Chung-Ang University B.S. in Artificial Intelligence GPA: 4.20/4.50 (Major GPA: 4.29/4.50), Graduated with Highest Honors	Mar 2021 – Feb 2025
--	---------------------

RESEARCH
PROJECTS

Plug-in External-Memory Models for Augmenting Knowledge of Large Language Models Sep 2025 – Current
National Research Foundation of Korea (Co-PI)
Research on next-generation RAG via plug-in external memory.

Translation-Free Strategies for Consistent Multilingual Retrieval-Augmented Generation Sep 2025 – Current
National Research Foundation of Korea (PI)
Translation-free multilingual RAG strategies that improve cross-lingual consistency without English pivoting.

Next-Generation O2O Fashion Retail System: Personal Shoppers and Immersive Virtual Fitting Jul 2025 – Current
Ministry of Trade, Industry and Energy (Co-PI)
Developing a conversational fashion AI agent.

Risk Assessment of Construction Sites based on LLMs Jun 2024 – May 2025
Doosan Enerbility (Co-PI)
Risk assessment and prediction with large language models.

HONORS
& AWARDS

Graduate Research Scholarship (GRS), full tuition, Chung-Ang University	Mar 2025 – Current
Graduated with Highest Honors (GPA $\geq$ 4.2/4.5), Chung-Ang University	Feb 2025
Department Honor Scholarship (1st in cohort), Chung-Ang University	Mar 2024
Department Secondary Honor Scholarship (Top 10% in cohort), Chung-Ang University	Sep 2021, Sep 2024
Leadership Scholarship (Department Representative), Dept. of AI, Chung-Ang University	Sep 2022, Mar 2023, Mar 2024
Vice President Scholarship, Department Student Council, Dept. of AI, Chung-Ang University	Nov 2021 – Nov 2022
Excellence Award, 2022 SW·AI Startup Idea Competition (Da Vinci SW·AI Tech Fair)	Sep 2022

INVITED
TALKS

Investigating Language Preference of Multilingual RAG Systems
Korea Software Congress (KSC 2025), Yeosu, Korea

Dec 2025

TEACHING
EXPERIENCE

TA: “Embedded Artificial Intelligence,” Chung-Ang University

Fall 2024, Fall 2025
